

Q.5 Sum of even series.

Aim

To find the sum of the first **N even numbers** using RAPTOR.

Algorithm

1. Start.
2. Read the value of **N**.
3. Initialize **i = 1** and **sum = 0**.
4. Repeat until **i <= N**:
 - Calculate the even number as $2 \times i$.
 - Add it to **sum**.
 - Increment **i** by 1.
5. Display the sum.
6. Stop.

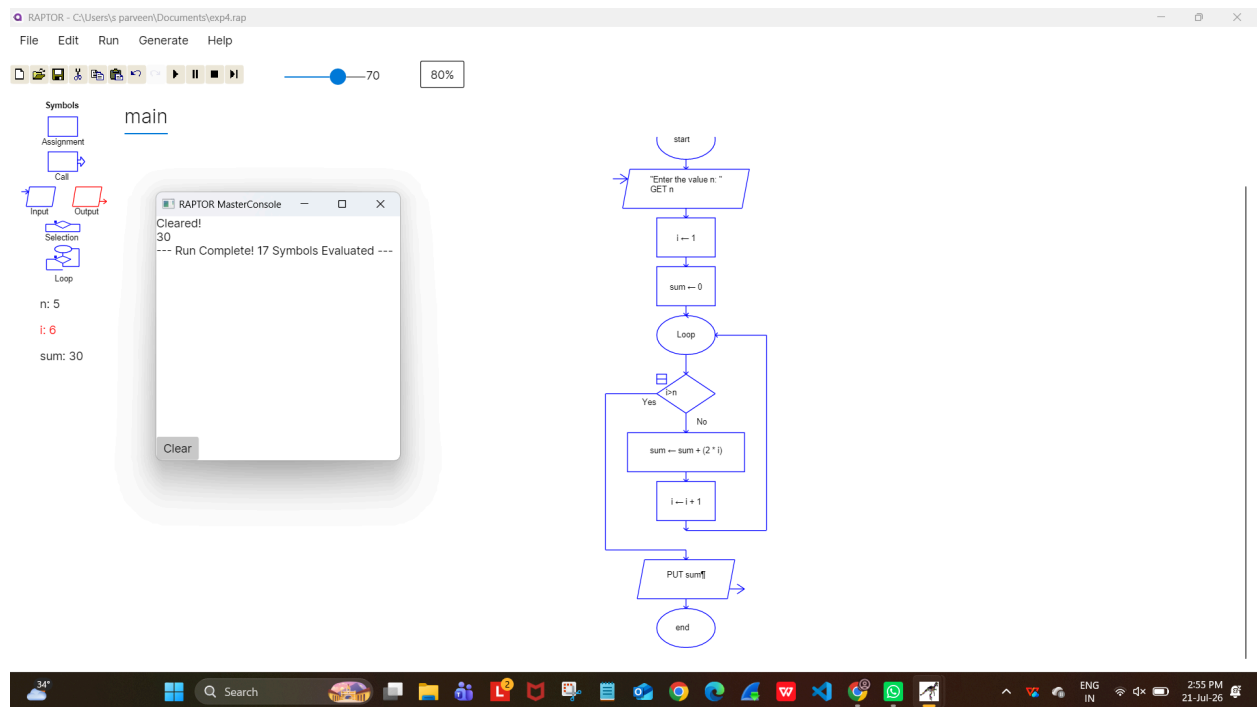

Input

- **N = 5**

Output

- **Sum = 30**

Snapshot from Raptor :

Result

The sum of the first **N even numbers** is calculated and displayed.
