

Q.1 Fibonacci Series Generation.

Aim :

To generate the Fibonacci series using RAPTOR.

Algorithm :

1. Start.
2. Input the number of terms (n).
3. Set $a = 0$ and $b = 1$.
4. Repeat n times:
 - Display a .
 - Calculate $c = a + b$.
 - Set $a = b$.
 - Set $b = c$.
5. Stop.

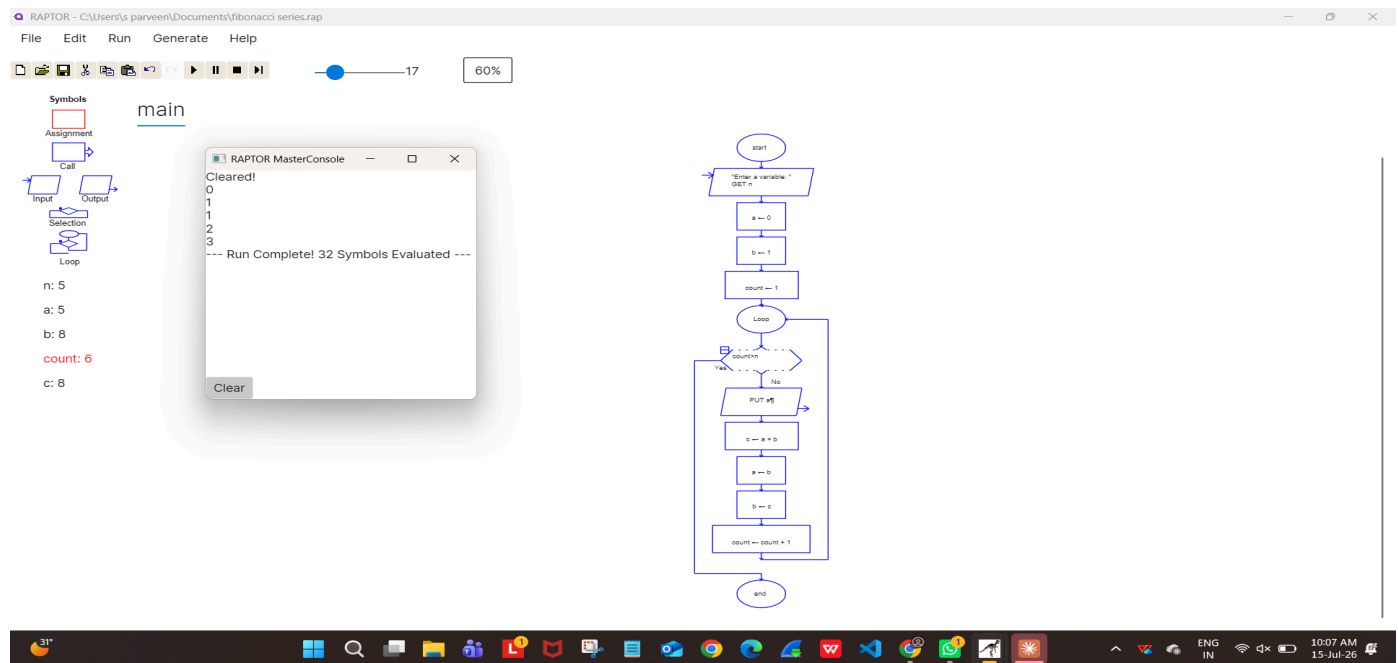

Input :

Number of terms: **5**

Output :

0 1 1 2 3

Snapshot from Raptor :

Result :

Fibonacci series generated successfully using RAPTOR.
